

2009 CAP SOMALIA - CLUSTER PLANS & PROJECT SHEETS

Cluster Plans - Nutrition

Objective	Major Activities	Indicators	End-May Targets	Year-end Targets
Nutrition				
OBJECTIVE SOM_NUT_1				
<p>Improve access of nutritionally vulnerable population to quality emergency nutrition response (including selective feeding programmes and blanket feeding)</p>	<p>(1) Support existing selective feeding programmes (technically/supplies) as well as establishing new emergency nutrition interventions (Stabilisation Centres (SC), Outpatient Therapeutic Programme (OTP), Supplementary Feeding Programme (SFP) etc. including blanket feeding programmes) to rehabilitate moderately and severely malnourished children</p> <p>(2) Undertake piloting of emergency nutrition response strategies like blanket supplementary food and ready to use food</p> <p>(3) Strengthen nutrition surveillance systems and regularly review the anticipated caseload of acutely malnourished children</p> <p>(4) Regularly review coverage and gaps in the nutrition response and undertake advocacy for the gaps</p> <p>(5) Disseminate the relevant guidelines for reference in the nutrition programmes</p>	<ul style="list-style-type: none"> • Number and type of feeding programmes under implementation or established in areas of critical nutrition needs to expand coverage • Feeding programme performance indicators (coverage/admission, cases cured, dead, defaulted and transferred) • Roll out (finalise and disseminate) of the Guidelines for Approaches for Management of acute malnutrition and SFP guidelines as part of the Community-based Management of Acute Malnutrition (CMAM) strategy of strengthening the management of acute malnutrition 	<ul style="list-style-type: none"> • 40% (70,000) of 174,000 malnourished children in rural areas 60% coverage of 7,000 malnourished IDPs in IDP settlements • Feeding programme performance indicators monitoring (reference to SPHERE Standards) • Guidelines roll out (finalised and disseminated) to all Somalia programme areas 	<ul style="list-style-type: none"> • 60% (104,000) of 174,000 malnourished cases in rural areas 90% coverage of 7,000 malnourished IDP children in IDP settlements • 60% (104,000) of 174,000 malnourished cases in rural areas IDP settlements – 90% coverage of 7,000 malnourished IDPs children • 60% (104,000) of 174,000 malnourished cases in rural areas IDP settlements – 90% coverage of 7,000 malnourished IDPs children
OBJECTIVE SOM_NUT_2				
<p>Ensure integration of emergency selective feeding programmes with medium term nutrition and multi-sector programmes addressing the underlying causes of malnutrition</p>	<p>(1) Undertake essential nutrition interventions like micronutrient supplementation, child care promotion and promotion of infant and young child feeding strategies and maternal nutrition as integral components of the minimum nutrition package</p> <p>(2) Undertake advocacy for integrated response to nutritionally vulnerable populations (through nutrition cluster representation in inter-cluster and other clusters, invitation of other clusters to nutrition meetings, sharing of strategies across sectors – Health, WASH, Food Aid and Livelihood)</p> <p>(3) Strengthen coordination in Nairobi and Somalia (to enhance partnership, integrated response mapping, information sharing, strategy development, coverage and gaps analysis) all geared towards addressing nutrition crisis</p>	<ul style="list-style-type: none"> • Number of programmes implementing the essential components of the minimum nutrition package (Expanded Programme for Immunisation (EPI), WASH, Micronutrient supplementation, food aid etc) • Frequency of Somalia level nutrition coordination and Nairobi and Somalia inter-cluster coordination where advocacy for integrated response and monitoring of integrated response aimed at improving nutrition take place • Regular update of the 3Ws (Who Does What Where matrix) and advocacy undertaken contained in the 3Ws planned response (presentation of 3Ws to other clusters) 	<ul style="list-style-type: none"> • Ensure all emergency nutrition programmes have at least 2 additional components to the feeding activities • At least 2 project areas with high malnutrition and high population density benefit from 50% of the minimum package components 30% coverage in micronutrient supplementation (Vitamin A at least) • Provide a detailed 3W analysis on programme activities 	<ul style="list-style-type: none"> • Ensure all emergency nutrition programmes have at least 4 additional components to the feeding activities • At least 3 project areas of high acute malnutrition and high population density benefit from 70% of the minimum nutrition package components 60% coverage in micronutrient supplementation (Vitamin A at least) • Provide quarterly analysis of 3Ws to maintain response programme monitoring

Cluster Plans - Nutrition

Objective	Major Activities	Indicators	End-May Targets	Year-end Targets
OBJECTIVE SOM_NUT_3				
Strengthen technical capacity and avail appropriate resources to National NGOs/CBOs and national staff to facilitate implementation of emergency and long term strategies addressing malnutrition	<p>(1) Training NGOs (including INGOs) national staff on prevention and management of acute malnutrition</p> <p>(2) Capacity strengthening of National NGOs on planning and management of programmes and resource mobilisation</p> <p>(3) Engage more National NGOs in nutrition assessments, needs analysis and programme implementation (partnership building)</p>	<ul style="list-style-type: none"> • Number of staff trained in management of acute malnutrition • Number of additional national NGOs accessing funding support and implementing emergency programmes • Number of national NGO staff trained on programme planning and management 	<ul style="list-style-type: none"> • 20 National staff trained in management of acute malnutrition • 5 national NGO staff trained on programme planning and management • 3 additional National NGOs accessing funding support and implementing emergency programmes through new partnerships 	<ul style="list-style-type: none"> • 60 National staff trained on management of acute malnutrition • 10 national NGO staff trained on programme planning and management • 6 additional national NGOs accessing funding support and implementing emergency programmes through new partnerships

Nutrition							\$67,557,955
ASEP							
Advancement for Small Enterprise Program SOM-09/NUT(1495) [HIV][Gnd][CB] SOM_NUT_1 SOM_NUT_2 SOM_NUT_3 Supports UNTP: No	Community Based Nutrition Support Project through Supplementary Feeding Programme	1. Improve access to the supplementary food to 1000 moderately malnourished children and 1000 malnourished lactating and pregnant mother in 4 villages of Garbaharey and Bardera 2. Strengthen the capacity of community to respond malnutrition	1. Establishment of 4 new supplementary feeding centres 2. Treatment of common illnesses and provision of micro-nutrient supplementation 3. Health and nutrition education 4. Referral of severely malnourished children to stabilisation centers 5. Distribution of dry ration to moderately malnourished children, lactating and pregnant mothers 6. Participation in the nutrition survey and assessment in Gedo	1. Strengthen community capacity to respond to malnutrition 2. Reduce incidence of malnutrition in selected villages and improve general nutrition status of the target communities	1,000 children under five (malnourished) 1,000 lactating and pregnant mothers	1. Health authorities and other Community Based Organizations	\$189,000
CISP							
Comitato Internazionale Per lo Srihippo dei Popoli SOM-09/NUT(1497) [HIV][Gnd][CB] SOM_NUT_1 SOM_NUT_2 SOM_NUT_3 Supports UNTP: No	Emergency nutrition intervention in South Mudug and Galgaduud Region	1. Increase access to quality nutrition for vulnerable groups in Humanitarian Emergency and Acute Food and Livelihood Crises 2. Provide supplementary feeding for moderately malnourished people in the health facilities of Xarardhere, Galcad and Ceel Dheer 3. Strengthen the technical capacity of CISP health and nutrition staff members in responding to emergency nutrition crisis to deliver basic minimum package for nutrition (programme integration)	1. Implement supplementary feeding programmes in the three districts (Xarardhere, Galcad and CeelDheer) 2. Undertake screening for the severely malnourished and referral to the nearest OTP/ Stabilisation centre 3. Micronutrient supplementation, deworming, routine vaccination 4. Refresher training of staff and health committees in the three districts on the management of moderate malnutrition through SFP. 5. Conduct nutrition and health education sessions 6. Conduct bi-monthly sentinel site surveillance in selected villages 7. Facilitate integration of nutrition interventions with other programmes both at planning, implementation and monitoring levels	1. Feeding centers established in the IDP concentration areas/camps 2. 3 supplementary feeding centres set up for moderately malnourished children management 3. 30 CISP staff members and health committees trained in management of acute malnutrition 4. Reduced acute malnutrition levels below 15% among children in the Xarardhere, Galcad and CeelDheer 5. Reduced under five morbidity and mortality associated with malnutrition to acceptable levels (1/10,000/day)	Total target population is 220,000 in Eldere, Galad and Haradere district inclusive of the 44,000 under five year old children (20% of the total). Estimated 7,900 actually malnourished children to be targeted by supplementary programmes.	1. CISP Somalia programme as well as the District health boards	\$640,000
DIAL							
DEVELOPMENT INITIATIVE ACCESS LINK SOM-09/NUT(1499) No cross cutting SOM_NUT_1 SOM_NUT_2 SOM_NUT_3 Supports UNTP: No	Emergency Nutrition Response Project	1. Enhance the nutritional requirement of vulnerable population 2. Provide community based nutritional support to malnourished children including nutrition education and asymptomatic treatment of common ailments 3. Contribute to the support and improvement of the food security and livelihoods situation in the district	1. Provide supplementary feeding programme in Badhaadhe 2. Conduct trainings for SFP staff and carry out community awareness sessions on critical nutrition issues 3. Provide livelihood support to enhance nutrition targeting malnourished children 4. Monitor the nutrition trends in the district and participate in nutrition assessments and surveys	1. Reduced incidence of severe acute malnutrition in Badhadhe 2. Improved access to nutrition rehabilitation and other services 3. Reduction in under five high morbidity and mortality rates associated with malnutrition	850 malnourished children with 120 from IDP households. Education and livelihood support projects to target families with malnourished children.	1. Local Community Resource Persons (both traditional and semi-professionals), local authority, health stakeholders in the district especially Somali Red Crescent Society who run Badhaadhe town MCH	\$183,000

HDC							
Human Development Concern SOM-09/NUT(1507) [HIV][Gnd][CB] SOM_NUT_1 SOM_NUT_2 Supports UNTP: No	Promotion of integrated response to nutrition through community capacity strengthening in Bardera, Gedo	1. Improve awareness on links between malnutrition and water and hygiene factors, health and livelihood support services 2. Train community public health educators in nutrition and influencing factors	1. Participate in nutrition assessment and surveys including adhoc nutrition screening during nutrition education at community level 2. Undertake hygiene promotion activities through education, and IEC material distribution (covering a wide range of information that will enhance the links), liaising with Imam in Mosques, promoting and empowering women groups with nutrition and related knowledge 3. Establish demonstration sites for education such as kitchen gardens, close to wells, houses and mosques. Use mosques for the training/ educating of public health educators	1. Improve awareness on nutrition and undermining factors. Establish demonstration/educational sites at the community level managed and maintained by the community (new MCH, wells, mosques etc)	Educate 10 village health committees (VHC) on nutrition education. 4 women groups of 20 member each. 3 youth group trained on IEC materials messages.	1. OCHA 2. UNICEF 3. WFP 4. UNFPA 5. UNHCR/UEROPIAN UNION	\$39,000
InterSOS							
InterSOS SOM-09/NUT(1511) [HIV][Gnd][CB] SOM_NUT_1 SOM_NUT_2 SOM_NUT_3 Supports UNTP: No	Emergency Nutrition Project for conflict affected populations in Middle Shabelle Region (Jowhar, Mahaday, Balad, Warsheik and Awadley districts), with special focus on children and women in IDP and rural settlements	1. Improve access to nutrition emergency response for nutritionally vulnerable people in Middle Shabelle (with focus on children and pregnant and lactating women in IDP camps and rural settlements) 2. Contribute to integrated nutrition program with health care, hygiene education interventions in targeted communities 3. Strengthen capacity of national nutrition stakeholders, staff and partners (NGOs, CBOs), educational actors and health actors to address malnutrition	1. Screening of children under 5 and women (including PLW) to be targeted by nutrition and immunization interventions (Measles). 2. Support to existing 4 static and 4 mobile health and nutrition facilities 3. Selective feeding interventions for nutritionally malnourished children through four SFP, mobile and community based outpatient treatment programs (OTP) or SC (mobile team covering about 20 OTP sites) 4. Monthly Nutrition, Health and Hygiene Education (including promotion of improved feeding practices and prevention of HIV/AIDS) . 5. Organization of Mother and Child Health days and immunization campaigns implemented 6. Treatments of micronutrient deficiency disorders for children between 6-59 months and women through micronutrient supplementation (Vitamin A, Deworming, Iron) 7. Training of staff and local NGOs on adequate management of nutritional programmes 8. Regular data collection from feeding programmes and reporting (disaggregated by gender and age) 9. Community mobilization and communication	1. Children under 5 and women with nutritional needs in targeted areas are screened 2. 4 static and 4 mobile health and nutrition care facilities are supported to provide nutrition response 3. SFP activities are carried out regularly (every 2 months) in targeted population (8000 malnourished children) through 4 SFP sites 4. 10 mother and child health, hygiene and nutrition education days are organized 5. 40 health and nutrition operators and educators are trained	15,000 IDPs (potential catchment population 200,000) and about 7-8,000 malnourished children will be identified and treated within the project catchment area.	1. WOCA 2. SSWC	\$500,000

ISRA								
ISRA SOM-09/NUT(1510) [HIV][Gnd][CB] SOM_NUT_1 SOM_NUT_2 Supports UNTP: No	Nutrition Education and Social Mobilization in Bakol	1.Improve knowledge, attitude and practice in nutrition and related issues of children and pregnant women in three districts in Bakol region 2.Promote mainstreaming of gender in nutrition response through increasing involvement of women and girls in nutrition response at household and community level as well as males orientation in the provision for more support in nutrition	1. Undertake education sessions during the selecting feeding programme activities covering wide range of appropriate child care and child feeding practices 2. Community model behavior change communication workshops for improving child nutrition to be held at three project target districts involving nutrition workers implementing nutrition programmes, women group leaders and community leaders 3. TOTs module behavior change communication workshops for improving child nutrition to be held at three project target districts 4. Erecting of 9 billboards, printing IEC materials (300 T-shirts, 900 brochures & 600 postures) and developing and pre-testing of BCC messages on child nutrition improvement 5. Formative research through interviews, focus group discussions observations conducts by trained local volunteers	1. 90 people selected from three project target districts receive community model behavior change communication workshop for improving child nutrition 2. 60 people selected from three project districts received TOTs model behavior change communication workshop for improving child nutrition 3. BCC messages on child nutrition improvement developed, pre-tested and disseminated through multiple IEC materials 4. Social cultural risk factors associated with critical nutrition priorities of target audiences, and opportunities to promote BCC are identified 5. 70% of catertakers of the malnourished cases in Bakool reached and briefed on BCC and appropriate practices of child feeding enhanced	8,000 malnourished children (Under five year old) through their caretakers, 13,400 of women out of which estimated 2,680 are pregnant and lactating women.The Total project direct beneficiaries are about 21,000 consisting of nutritionally vulnerable children caretakers and women living in the drought affected areas in Bakol.			\$60,208
Medair								
Medair SOM-09/NUT(1500) [CB] SOM_NUT_1 SOM_NUT_2 SOM_NUT_3 Supports UNTP: No	Integrated Emergency Nutrition Programme in Burao, Togdheer in Somaliland	1. Improve provision and access to quality essential curative, preventative and promotional nutritional care services for IDP, host and vulnerable populations in and around Burao	1. Establishment of Communitiy based OTP and SFP programme. 6 mobile OTPs and SFPs will be located in and around Burao town 2. Provision of technical support to the Stabilisation Centre at the General hospital in Burao town 3. Recruitment and training of Nutrition and Health staff in the management of acute malnutrition 4. Provision of supplies and equipment 5. Nutrition education and promotion activities 6. Community mobilisation activities (including active case finding in the community and referral within the programme components)	1. Expand nutrition assessment, education and acute malnutrition treatment integrated into the existing health system 2. Improve practices in management and prevention of acute malnutrition 3. Increase and maintain capacity, knowledge and good practice of local partners, health workers and communities	IDP, host, marginalised and vulnerable populations in and around Burao Town Total population targeted: 49,000 (including 21,564 IDPs), of which 9,800 children under five, approximately 2,300 moderately malnourished children and 250 severely malnourished children	1. Direct implementation by Medair	\$449,862	
Medair SOM-09/NUT(1501) [CB] SOM_NUT_1 SOM_NUT_2 SOM_NUT_3 Supports UNTP: No	Integrated Emergency Preparedness and Rural Nutrition in Middle Shabelle	1. Improve provision and access to quality essential curative, preventative and promotional nutritional care services for IDP, host, marginalized and drought affected populations in Cadale district	1. Establishment of Community based programme (with stabilization centre, OTP and SFP) in Cadale district 2. Recruitment and training of nutrition and health staff in management of acute malnutrition 3. Provision of equipment and supplies for the nutrition programme 4. Community mobilization activities 5. Nutrition education and promotion activities	1. Expand nutritional assessment, education and acute malnutrition treatment and prevention, integrated into the existing health care system 2. Improve practices in management and prevention of malnutrition 3. Increase and maintain capacity, knowledge and good practises of local partners, health workers and communities	IDP, host, marginalized and drought affected populations in Cadale district : 46,720 (including 7,000 IDPs) of which 10744 children under five; 1461 moderatley malnourished children, 350 severly malnourished children.		\$463,846

Mercy USA							
Mercy USA SOM-09/NUT(1502) [Gnd][CB] SOM_NUT_1 SOM_NUT_3 Supports UNTP: No	Improving management of acute malnutrition for communities in Hiiran, Middle Shabelle and Middle Juba regions through strengthening the technical capacity of programme staff	1. Enhance technical capacity of 48 national programme staff to enable better case management of moderate and severe acute malnutrition amongst vulnerable groups in Hiiran, Middle Shabelle and Middle Juba	1. Conduct capacity needs assessment 2. Train programme staff in targeted and accurate case finding using new WHO standards 3. Train programme staff in prevention/management of acute malnutrition using the harmonized training package for Nutrition in Emergencies 4. Train programme staff in project management techniques including project cycle management, monitoring and evaluation and resource mobilization 5. Follow-up supervision by technical advisors on practical on-job application 6. Staff performance evaluation	1. Quality management of moderate and severe cases of acute malnutrition 2. Timely and efficient delivery of services to the community 3. Improved community awareness and homebased management of malnutrition through improved training to the community	48 programme staff : 18 women and 30 men.		\$61,840
RI							
Relief International SOM-09/NUT(1506) [HIV][Gnd][CB] SOM_NUT_1 SOM_NUT_2 SOM_NUT_3 Supports UNTP: No	Emergency Nutrition Project in Mudug and Nugal Amongst Children Under Five	1. Reduce prevalence of global acute malnutrition in children under five to less than or equal 10% WFH z-score and taking into account integrated response 2. Increase capacity for provision of nutritional interventions 3. Appropriate health and safe hygiene practices promoted especially amongst children	1. Implement SFP as per agreed standard treatment protocols 2. Implement OTP as per agreed standard treatment protocols 3. Train local counterparts in nutritional assessment techniques 4. Perform 5 localized nutritional assessments 5. Train local counterparts in malnutrition management 6. Perform 5 localized KAP surveys 7. Provide (child) health, hygiene and sanitation education to 125,000 community members 8. Provide technical and material inputs for the construction of 600 pit latrines 9. Liaise closely with nutrition cluster on advocacy for minimum package for nutrition and enhancing integrated response	1. Rehabilitate 22,000 moderately malnourished children through SFPs 2. Rehabilitate 2,000 severely malnourished children through OTPs 3. Soap and mosquito nets provided to 15,000 pregnant and lactating mothers and 14,000 carers of malnourished children 4. Increase local capacity to identify and manage malnutrition through SFPs 5. Promotion of safe hygiene practices	22,000 children under the age of five. 15,000 pregnant and lactating mothers. 14,000 carers of malnourished children.	1. Somali Women Concern 2. Ministry of Health	\$1,996,999
SACOD							
Somali Action for Community Development SOM-09/NUT(1509) [HIV][Gnd] SOM_NUT_1 SOM_NUT_3 Supports UNTP: No	Targeted Emergency Supplementary Feeding in Northern Merka, Shabelle (Janale area)	1. Rehabilitate the moderately malnourished children and other vulnerable groups (women of child bearing age) through take home dry rations provision in Marka - Janale area for 32 villages 2. Establish a community based and sustainable referral system of the malnourished cases to the nearest referral centres and health facilities	1. Conduct targeted Emergency Supplementary Feeding Programme through 4 SFP sites in Janale area by providing dry take home ration 2. Carry out mobilization through community based focal persons who form the community based action group per village 3. Conduct training of community members through training of trainers and thereafter community focal persons who perpetuate the nutrition training process 4. Undertake systematic treatment for the malnourished children identified (seek supplies like drugs and vaccines from stakeholder)	1. Halt deterioration in malnutrition status of at risk groups 2. Community action groups trained in case identification and referral	3,000 women and 3,000 children.	Basic Development Needs (BDN)	\$320,000

SAF							
Somali Aid Foundations SOM-09/NUT(1508) [HIV][Gnd][CB] SOM_NUT_1 SOM_NUT_2 SOM_NUT_3 Supports UNTP: No	Strengthen the nutrition programme in Lower Juba (Afmadow and Hagar Districts)	1. Ensure access to emergency nutrition services by vulnerable populations in Afmadow District 2. Ensure proper integration of emergency selective feeding programmes with multi sector programmes in order to address the underlying causes of malnutrition 3. Strengthen the capacity of the personnel engaged in response to the malnutrition crisis	1. Carry out systematic treatment to the moderately and severely malnourished children and conduct proper immunization (severely malnourished will be referred to the nearest severe malnutrition management centre) 2. Provide fortified blended food to each of the child registered for the programme and eligible for the services 3. Promote social concept towards better health and nutrition practices 4. Promote better health and nutrition for children and mothers (including good child feeding practices in order to enhance proper growth of the child) 5. Undertake refresher training of the staffs in screening and moderate malnutrition management	1. Improve the nutritional status of children through improving coverage and the programmes achieving acceptable programme performance on cure, death and defaulter rates 2. Prevent cases of malnutrition through appropriate behavioural promotion and other nutrition promotion (micro-nutrient supplementation, infant and child feeding promotion) 3. Promote and maintenance of community health service delivery within the area of intervention	7,000 children out of this 4,000 is female children who are acutely malnourished and 3,000 will be male children who are acutely malnourished.	1. UNICEF 2. Local Administration 3. Nutrition Committees 4. Women Groups	\$164,743
UNICEF							
United Nations Children's Fund SOM-09/NUT(1503) [CB] SOM_NUT_1 SOM_NUT_2 SOM_NUT_3 Supports UNTP: No	Emergency Nutrition Response. Saving children's lives from death and disability due to malnutrition in Somalia	1. Treatment of 60% of severely acutely malnourished children under 5 and 40% of moderately acutely malnourished children <5 supported through maintained and expanded support to a total of 280 selective feeding programmes by the end of 2009 2. Blanket feeding to children under 5 established in five exceptionally nutritionally vulnerable areas including distribution of Ready to Use Foods 3. Integrated and evidence-based responses to the nutritional crisis in Somalia planned and conducted based on effective nutrition surveillance and coordination mechanisms	1. Procure and deliver emergency nutrition supplies, including appropriate food commodities, medical supplies and vitamin/micronutrient supplements; and support to warehousing facilities 2. Provide technical support to implementing partners (Government, INGOs, NGOs, CBOs) including training, supervision, guidelines and tools 3. Integrate management of acute malnutrition with other sectors (especially health, WASH) through development of minimum package of response for nutrition including development of behaviour change communication materials and tools 4. Conduct nutrition surveillance including assessments, surveys, data collection and analysis for evidence-based programme planning and response 5. Coordinate nutritional responses through cluster mechanism at national, zonal and regional level	1. Crude and under 5 mortality rates maintained below 2 and 4 deaths per 10,000 population respectively 2. Severe acute malnutrition rates decreased to under 2% and global acute malnutrition rates decreased to under 15% in selective and blanket feeding programme areas 3. Nutritional responses based on evidence-based research targeting the most vulnerable 4. Nutritional responses integrated with other sectors especially WASH and health 5. Nutritional responses well coordinated and interventions clearly communicated to communities	89,200 acutely malnourished under-five year children (33,600 severely acutely malnourished and 55,600 moderately acutely malnourished) + an additional 138,000 under-five year children with blanket RUF distributions in specific locations (L/M Shabele and Bossasso IDP camps)		\$26,588,109
WFP							
World Food Programme SOM-09/NUT(1669) [HIV][Gnd][CB] SOM_NUT_1 SOM_NUT_2 SOM_NUT_3 Supports UNTP: No	Emergency Nutrition Response in Somalia	1. Stabilise global acute malnutrition rates among children under 5 2. Stabilise malnutrition rates among pregnant and lactating women 3. To strengthen the management of moderate malnutrition	1. Provision of ready to use supplementary food to moderately malnourished children under five years 2. Provision of fortified blended food to all targeted pregnant women and lactating mothers attending MCH services 3. Capacity Building of NGO/CBO partners and WFP staff in the management of moderate malnutrition 4. Support the screening and appropriate referral of malnourished cases and facilitate complimentary malnutrition management	1. Global acute malnutrition reduced among under five in targeted communities in all Somalia 2. Reduced levels of malnutrition among pregnant women and lactating mothers 3. Improved capacity of NGO/CBO partners and WFP staff in the management of moderate malnutrition	157,500	CBOs, local and international NGOs and national counterparts	\$34,141,148

WVI							
World Vision International SOM-09/NUT(1504) [HIV][Gnd][CB] SOM_NUT_1 SOM_NUT_2 SOM_NUT_3 Supports UNTP: No	Health and Nutrition Intervention Project in Middle Juba	1. Rehabilitate moderate and severe acute malnutrition in children under five years through selective feeding and therapeutic feeding programmes 2. Promotion of appropriate IYCF and maternal nutrition practices in the correction and prevention of micronutrient deficiencies 3. Capacity building of CTC and PHC staff to enhance service delivery	1. CTC programmes - SFP/ OTP / SC to reach about 5,000 malnourished children 2. Capacity building of CTC staff and PHC/MCH staff and District Health committees 3. Support to EPI and ANC programme 4. Health and Nutrition education (Health learning groups, HIV/AIDS awareness) 5. Networking and participating in Coordination meetings at Nairobi level 6. Growth monitoring and child health activities 7. Support to nomadic health outreach programme	1. Increase access to quality preventive and curative PHC services 2. Improve referral systems and linkages with other health projects (Global fund malaria & TB, Nomadic health and PHC) and with other cluster players 3. Improve management of acute malnutrition and reduced malnutrition among children under 5 , pregnant and lactating mothers (macro and micro nutrient) 4. Improve local healthcare system through capacity building of community and staff and strengthening of health committees 5. Enhance networking and coordination of nutrition and health programming and intervention implementation, Monitoring and Evaluation	85,586 Beneficiaries inclusive of about 5,000 malnourished children.	1. UNICEF 2. WFP 3. WHO 4. UNFPA	\$1,380,000
World Vision International SOM-09/NUT(1505) [HIV][Gnd][CB] SOM_NUT_1 SOM_NUT_2 SOM_NUT_3 Supports UNTP: No	Bakool Nutrition Intervention Project	1. Improve access to nutrition emergency response and nutrition education in vulnerable populations 2. Improve food security situation of vulnerable populations 3. Strengthen technical capacity and avail resources to staff implementing the project	1. Management of moderate and severe acute malnutrition 2. Nutrition and health education sessions 3. Distribution of dry fortified blended food to beneficiaries 4. Distribution of seeds and tools 5. Capacity building of staff and community in food security 6. Capacity strengthening of staff and groups on nutrition interventions 7. Participate in nutrition assessments in close collaboration with other NGOs 8. Undertake advocacy for an integrated nutrition response through participating in cluster meetings 9. Integration of nutrition activities with other sectors and cross cutting themes	1. Reduce levels of malnutrition in Wajid and Tiyeglow districts to less than 15% GAM through integrated response 2. Improve knowledge of beneficiary households on appropriate feeding practices 3. Increase production of and consumption of fruits and vegetables among beneficiary families 4. Improve knowledge and capacity of the staff on emergency nutrition response 5. Integration of nutrition activities with other sectors	18,904 children under five with approximately 7,000 being acutely malnourished	1. World Vision 2. UNICEF 3. WFP	\$380,200
