

2009 CAP SOMALIA - CLUSTER PLANS & PROJECT SHEETS

Cluster Plans - Protection

Objective	Major Activities	Indicators	End-May Targets	Year-end Targets
Protection				
OBJECTIVE SOM_PRT_1				
Enhance accuracy of knowledge of the protection environment of civilians in order to better inform and improve programmatic response and advocacy activities	(1) Consult with all clusters to identify cross-sectoral protection information needs and themes	• % of all public statements and reports in which Protection Cluster information is used	• 30%	• 60%
	(2) Conduct four participatory assessments on basis of identified themes	• All data disaggregated by age and gender	• 30%	• 60%
	(3) Strengthen protection monitoring network through training on data collection, verification, analysis and reporting	• 12 monthly reports generated and disseminated by the protection cluster	• 50%	• 100%
	(4) Investigate additional protection information sources (e.g. hospitals, schools) and mechanisms (e.g. cross border information sharing) for verification	• Documented recommendations and follow up on action points made to other clusters	• 30%	• 60%
	(5) Develop Standard Operating Procedures (SOPs) for linking protection data with advocacy activities at Nairobi and field level, targeting various stakeholders			
	(6) Make recommendations to all clusters linking protection data with programmatic activities at Nairobi and field level			
OBJECTIVE SOM_PRT_2				
Strengthen the capacity of communities to reduce vulnerabilities and increase protection	(1) Mobilise and train communities to identify risks and protection coping mechanisms and develop appropriate strategies particularly for vulnerable populations	• Community-driven protection initiatives implemented and supported by the protection cluster members have female participation and involvement in decision making	• 20% of initiatives driven by the Protection Cluster have female participation and involvement in decision making	• 50% of initiatives driven by the Protection Cluster have female participation and involvement in decision making
	(2) Support implementation of community-driven protection initiatives (e.g. community security, community policing, HIV prevention, FGM) through Elders, Women and Youth Groups			
	(3) Advocacy to address priority protection issues identified at community level			
	(4) Target communities facing specific protection risks through the provision of alternative livelihoods (i.e. people living with HIV, female headed households)			

Cluster Plans - Protection

Objective	Major Activities	Indicators	End-May Targets	Year-end Targets
OBJECTIVE SOM_PRT_3				
Increase access to services for those who have experienced fundamental human rights violations	<p>(1) Monitor access to key existing services and follow up with Food Aid, Shelter, Health, WASH, and Education Clusters</p> <p>(2) Develop awareness raising campaigns for victims regarding access to justice and other services</p> <p>(3) Strengthen access to justice through the development of formal and informal justice systems</p> <p>(4) Train 250 professionals in care and support for survivors of SGBV</p> <p>(5) Establish and support multi-sectoral referral mechanisms for SGBV survivors</p> <p>(6) Expand service provision to children (up to 18 years old) and youth who have experienced human rights violations</p>	<ul style="list-style-type: none"> • Increase number of beneficiaries accessing services (disaggregated by age and gender) 	<ul style="list-style-type: none"> • 20% increase in the number of people who have experienced fundamental human rights violations have access to services 	<ul style="list-style-type: none"> • 50% increase in the number of people who have experienced fundamental human rights violations have access to services
