

## Agenda Item 5 Publication on 15 Years of Environmental Emergency Response

8th meeting  
of the Advisory Group on  
Environmental Emergencies

6 - 8 May 2009  
Brussels, Belgium

## Publication on 15 Years of Environmental Emergency Response

- Excellent opportunity to draw attention to successful environmental emergency response work;
- Highlight the contributions of the important actors in the field.

## The audience

- Donor and recipient governments, organizations and individuals engaged in environmental emergency work;
- The informed general public; people interested in the field of environmental emergency response.

## Description

- Coffee table book that documents the trends and major developments in the field of environmental emergency response;
- The book would be rich in text and contain captivating photos illustrative of actions taken;
- An electronic version of the book will also be made available.

## Themes

- A history of environmental emergency response
  - Exciting case studies
  - Successful partnerships
- Major trends
- Lessons learned
- Future challenges
  - ➡ looking forward!
